Advanced English

English-speaking teachers play a pivotal role in language education, offering students a unique opportunity for immersive and authentic language learning experiences. The presence of a teacher proficient in English not only provides a model for correct pronunciation, grammar, and usage but also brings cultural context and real-world applications to the language.

The ability to communicate fluently in English allows teachers to explain concepts clearly, provide immediate feedback, and engage in meaningful interactions with students.

English level C1 corresponds to the level of Proficient User or Effective Operational Proficiency. This level will enable the learner to use the language flexibly and effectively for social, academic and professional purposes. It is also intended to enable the learner to master a wide lexical repertoire which will enable him/her to compensate for communicative deficiencies with circumlocutions.

To take this level it is necessary to have a minimum level of B2

- He/she can understand a wide range of more demanding, longer texts, and recognise implicit meaning in them.
- He/she can express him/herself fluently and spontaneously without much obvious searching for the right expression.
- He/she can use language flexibly and effectively for social, academic and professional purposes. He/she can produce clear, well-structured, detailed text on complex subjects, showing correct use of organisational patterns, connectors and cohesive devices.

Achieving a C1 level in English represents a commendable mastery of the language, signaling an advanced proficiency that opens doors to nuanced and sophisticated communication. Individuals at this level demonstrate an impressive command of both spoken and written English, enabling them to engage effortlessly in complex conversations, debates, and academic discussions.

Enjoy training... and Andalusia

Obviously, training is a key aspect, but the environment makes the experience complete. That's why Cordoba is the best possible setting, the only city in the world with four World Heritage Sites by UNESCO, a city steeped in history and culture, and also the ideal place to discover Andalusia.

Less than an hour away by train you can enjoy the bewitching Seville, the cosmopolitan Malaga and the haunting Granada, as well as having some of the best beaches just two hours away by car. All in the best connected city in Spain by high-speed train, 1.45 minutes from Madrid and in the centre of Spain's most charming region. Are you going to miss it?

How to get to Córdoba?

Córdoba has no airport, but there are excellent connections to our city from three international airports thanks to the AVE (High Speed Train):

- Madrid. 400 kilometres, 1.45 hours to Córdoba by train.
- Seville. 130 kilometres, 45 minutes to Córdoba by train.
- Málaga. 145 kilometres. 50 minutes to Córdoba by train.

Málaga is the best option, due to the high amount and variety of international destinations and the facilities to link your flight to the train.

Madrid International Airport Adolfo Suárez is the biggest airport in Spain and it has connections with all the important destinations in Europe. Flights use to be cheaper and both the frequency and the options are higher, so it is also a good chance.

Seville is another option, though destinations and frequencies are not the best. Check if it fits your plans.

Train. There are different companies offering connections from and to Madrid, Málaga and Sevilla to Córdoba. The sooner you book, the cheaper!!

- RENFE (www.renfe.es). In trains from and to Seville or Málaga, you will find AVE and AVANT. The service is the same, though this last one is cheaper. It happens the same from Madrid with AVE and ALVIA.
- IRYO. (<https://iryo.eu>). Cheap tickets if booked with months in advance.
- AVLO (<https://avlorenfe.com>). From June 1st 2023. Renfe low cost brand.
